## ABOUT WORKSHOP

The aim of this workshop is to provide the participants a sound overview of reference management tools and their usefulness in organizing research. Use of reference management tools such as Endnote, Zotero, Mendeley are very helpful to create research workspace & carry out research works, creation & organize bibliographies, to construct references while writing research, collaborating and discovering new research. These standard tools can reduce the task of writing bibliographies, references manually while writing research, thereby cutting the time, human efforts & errors on the part of research scholars.

The following major topics will be covered during workshop:

- Introduction to Research and Research Ethics
- What is plagiarism and how to avoid it?
- Use of Reference Management Tools -Zotero and Mendeley
- Research Networks

## ABOUT ZOTERO

Zotero is a free, open-source research tool that helps one to collect, organize, and analyze research and share it in a variety of ways. It has the ability to store formatted references with the facility to organize, tag, and search in advanced ways

## ABOUT MENDELEY

Mendeley is a free reference manager and academic social network that can help you organize your research, collaborate with others online, and discover the latest research.

## TARGET AUDIENCE

The workshop is intended for Library & Information Science Professionals, Researchers and Students.
